

Proposals

for Publishing
a Third Volume of the
Catalogue
of the

Library Company of Philadelphia.

It is contemplated by the Directors of the Philadelphia Library, provided a sufficient number of subscribers can be obtained to justify the undertaking, to print a Third Volume of the Catalogue, to include all books added to the Library since the Catalogue, in 2 vols. of 1835.

This third volume will be paged continuously with the Catalogue of 1835, and will include the first Supplement, [printed in 1844] the second Supplement, [printed in 1849] together with all books added since. It will be classified and subdivided on the same plan as the large Catalogue and in addition it will have as an Appendix a complete and copious

Index

to the whole 3 volumes.

This Index will contain all authors, translators, and annotators names, all subjects treated of, together with the most important word or words in the title page of each book; the whole arranged alphabetically, so that the page of the Catalogue where the full title, number and size of every work in the Library stands, may easily be found.

The Third Volume, making from 800 to 900 pages octavo will probably be published about January 1856 and the price will not exceed Four Dollars.

We the subscribers, knowing the importance of the proposed Catalogue and Index hereby Engage to take, when published, the number of copies set down against our respective names.
